11. North America: Eagles, a Herd of Bison, Rabbits and a Pack of Gray Wolves	52
12. Canada: A Moose, a Family of Grizzly Bears and a Pair of Falcons.....	55

Preface

One of my visions is to help animals be more respected and loved as well as to help humanity recognize animals as their own souls on their own soul path. I also want to help them recover completely, including the whole of Mother Nature. We are all connected; we are all in the same “ship” sailing on planet Earth.

My visions became this story, in which a unicorn family flies with their daughter over the recently newborn planet Earth to meet some of the magnificent and awesome animals that live there, which shows us the unique gifts each of them presents to us.

I hope many people read this book and that it helps them recognize every single soul, including the souls of the animal kingdom and of Mother Earth as souls on their own soul paths. I wish that people will be able to respect them and find peace and unconditional love within themselves so that we, together, are able to create “Heaven on Earth”.

Andrea

Introduction

Earth is going through a vast dimensional shift, moving from the third to the fifth dimension in a very short space of time.

We, as humans, share our planet with a vast and intricate array of beautiful beings... the animal kingdom.

Many souls have viewed the animals of this planet as a lesser species, as this attitude was established during the final years of Atlantis over 10,000 years ago. The reality of this couldn't be more different.

Every animal soul on Earth is on its own and unique ascension path. And every single one of them has a vital role to play in the establishment and raising of the fifth dimensional vibration. It is also worth noting that at the time of my writing this introduction, over 75% of the animal kingdom has already achieved physical ascension.

Our relationship with the animals is changing as fast as the energy matrix. One of the highest heart facets that humans are tested on, is their love and empathy towards them.

Once we learn to love ourselves in our entirety, then we can truly love and respect the brave and selfless souls we have chosen to incarnate with.

I truly hope that you enjoy this beautiful story that my dear friend Andrea has written. Read the words carefully, and feel the vibration and message contained within.

Tim Whild

1. Africa: An Elephant Herd and a Pride of Lions

Fleja the unicorn child and her wise parents often flew over the beautiful, recently newborn planet Earth, spreading angelic light over the trees, plants, flowers, rivers and seas as well as over all the wonderful animals and warm hearted people that live there. After a long period of time, planet Earth had completely recovered. Wild animals were once again living free in their natural habitats, thankful that humanity had given them back their territories. Domestic animals were also living freely and harmoniously within their families, with everything necessary to be able to live, love and develop their own souls as well to have fun and serve their families, as is their free will, with all their decisions respected and communicated telepathically.

One sunny Morning, Fleja and her parents made a special visit to one of the vast herds of elephants in the middle of Africa with its profuse vegetation comprising lush bushes, majestic trees and all kinds of high and short grasses as well as waterholes, pools, lakes and streams. Nature was

blooming in such magnificence that it made hearts jump for joy. As they softly landed beside the enormous herd, Jan, the wise old elephant soul and granny too many of the youngsters including the recently newborn calf Jumby, welcomed the unicorn family warmly. She hugged each one softly with her trunk as the unicorns gave her a loving touch with their brightly shimmering horns.

“Hello Nuja, hello Flynn and hello beautiful Fleja! What a pleasure to see you today! And thank you for hearing my telepathic invitation! We are so pleased with our Jumby and I am soooo excited to introduce you to him today,” said Jan joyfully.

“Hello lovely Jan, nice to see you, too,” the unicorns replied together.

“Is it true that I can play with Jumby today?” Fleja asked shyly.

“Yes Fleja. He will be very happy to play with you,” Jan answered lovingly. “Now, let’s go and see my large family. They’ll all certainly be very happy to see you!”

They moved cheerfully toward the mighty herd, passing the many elephant families who greeted the unicorns with

much joy and love in their eyes. “Jan, how have you been doing since our last visit? Is everything okay with you and your big family? Are all the elephants well?” Nuja asked.

“Thank you Nuja. Yes, all is well and everybody is very happy. The vast landscape nourishes us in every way and we have enough healthy water to drink and for our daily cleansing bath. Nature supports us with so much love and generosity. We are so grateful.”

In the middle of the herd, safely protected by the other family members, was Jumby, the newborn calf and his overjoyed mother, Amy. “Hello Nuja, hello Flynn, hello Fleja. Welcome and thank you for visiting us! May I introduce you to my lovely baby, Jumby.” Jumby smiled shyly toward the unicorns, still cuddling his mother’s legs by gently rubbing one ear after the other along her stomach.

“Hello Amy and hello Jumby!” Nuja said. Nuja carefully touched Jumby’s forehead with her rainbow colored horn as Jumby leapt and smiled brightly.

“Dear Jumby, may I introduce you to Fleja. She will be very happy to play with you today,” Amy added.
